

**ARGUMENT IN FAVOR OF MEASURE RR
(Utility Users Tax)**

While reducing the tax rate, Measure RR will modernize the 38-year-old San Leandro Utility Users Tax (UUT). San Leandro's Utility Users Tax helps fund much used municipal services like our libraries, parks, streets and sidewalks, senior and youth programs, fire and police.

We want our tax system to be fair to everyone. Phone communication technology has changed significantly since the UUT was first introduced in November 1970, and Measure RR updates the law's descriptions and definitions in order to make sure the UUT is applied uniformly across current technologies.

Measure RR is not a new tax. Measure RR **reduces the tax rate** from 6.0% to 5.7%. This measure protects revenue needed to preserve valued quality of life services. Please vote Yes on Measure RR.
